

OBJECTIVE

Creative and highly motivated Front-end UI/UX Developer with over 9 years of experience in Web and Mobile Application Development. Specializing in Angular development, I've successfully led three major product-based projects and brought an innovative touch with my out-of-the-box thinking. My creative mindset is evident in contributions to several Angular Ionic apps and web applications. With 30 months of on-site experience in Malaysia and Singapore, I ensure a global perspective, deepening my understanding of diverse user requirements. Committed to staying updated on industry trends, I deliver inventive, client-centric solutions.

PROFILE HIGHLIGHTS

- Experience in both product & service-based organizations
- 30 months of on-shore project experience in Malaysia & Singapore
- Strong Front-end development experience with HTML5, CSS3, Bootstrap 4 & 5, Angular 8+, JavaScript / TypeScript, Adobe Photoshop and Illustrator
- Experience in Version control tools (GitHub)
- Rich experience in WordPress & Shopify
- Expertise in Responsive Web Design, Mobile & Web Application Development
- Collaborated with Back End Developers and ensured coherence between all parties
- Maintaining code quality and best practice standards to facilitate further development
- Strong experience with Cross Browser Compatibility issues and Optimization for web, including CSS Sprites and best practices
- Ability to work independently or in a team environment and learn new skills on the job
